

HATCH

DCFW's network for fresh-thinking shapers of the built environment in Wales

Hatch is DCFW's network for fresh-thinking shapers of the built environment in Wales

Hatch aims to...

- Be a voice for good design and make sure it's heard by the right people
- Raise awareness of the value of good, joined up design and planning, and the difference it can make to individuals and communities
- Learn and improve our skills to become better designers, enabling us to raise the standard of design in the built environment in Wales and make better places which are more sustainable
- Tackle the challenges and risks faced by talented designers in Wales together, bridging the gap between built environment disciplines
- Demonstrate the value of innovative design processes and solutions
- Raise design aspirations in Wales
- Have fun while we do it!

Hatch will...

- Proactively uphold the strategic aims of the Design Commission for Wales
- Meet, talk and do things together to achieve our aims
- Share ideas and information
- Look for, create and share opportunities
- Celebrate good design in Wales
- Take an interest in the politics influencing design and the built environment
